

Now we just need your Paypal KEYS

for the Admin>Payment>Paypal>Edit and Install.

from your dashboard

LIVE credentials

Login here:

<https://developer.paypal.com/developer/applications/>

And look for the **My Apps & Credentials** page

When you have created an App in **LIVE** mode
I think you will find your LIVE KEYS in there.

You have to find a page like this:
then copy the KEYS

Client ID
and
Secret

Create New App

Before you create your new app, let us know what kind of solution you're looking for.

Application Details

App Name

As a reminder, all apps created under your account should be related to your business and the type of business it conducts.

By clicking the button below, you agree to [PayPal Developer Agreement](#) (US accounts only).

Create App

The screenshot shows the PayPal Developer dashboard for an application named 'osconcertCOM'. The left sidebar contains navigation links: DASHBOARD, My Apps & Credentials, My Account, SANDBOX (with sub-links for Accounts, Notifications, API Calls, IPN Simulator, and Webhooks Events), and MOCK (with sub-links for Webhooks Simulator, Credit Card Generator, and Negative Testing). The main content area displays the application name 'osconcertCOM' and its display name. Below this is a section titled 'LIVE API CREDENTIALS' which includes a note about live transaction features, the PayPal account (cjhargind@hotmail.com), the Client ID (AWOMyqXHB1eltOq1nDh7MTxwTXK-0sNI...), and the Secret (EFD0a2ZY6VzBLBvu-9TB...).

When you have found your LIVE Paypal KEYS

1. Client ID
2. Secret

Edit your Admin>Payment>Paypal payment module

The screenshot shows the 'PayPal / Credit Cards' configuration page. It has a green status icon and an 'Edit' button. The configuration includes:

- Use PayPal?** A question 'Do you want to accept PayPal Plus payments and notifications?' with radio buttons for 'True' (selected) and 'False'.
- Client ID** A text field with the value 'AUvGb_Hs_5aOqCwwew' and a description 'Your REST API Client ID'.
- Secret** A text field with the value 'EFD0a2ZY6VzBLBvu-9TB...' and a description 'Your REST API Secret'.
- Sandbox (Test) Mode?** A question 'Run in TEST MODE?' with radio buttons for 'True' and 'False' (selected).

If you want a Sandbox Account and testing keys you must follow the same procedure but select Sandbox and not Live tabs.

Finally

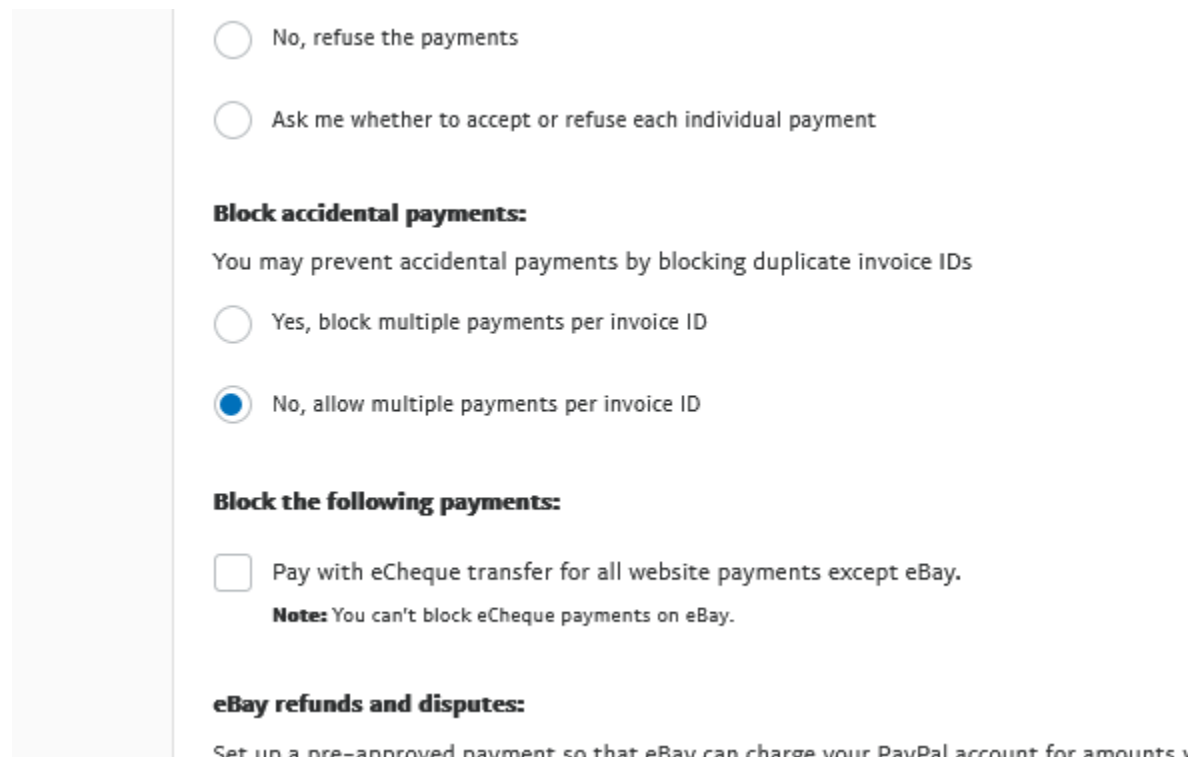

If you could go to your Paypal Account <https://paypal.com> and find <https://www.paypal.com/businessmanage/preferences/payments>

Find

Block accidental payments:

and enable:

No, allow multiple payments per invoice ID

☐ No, refuse the payments

☐ Ask me whether to accept or refuse each individual payment

Block accidental payments:

You may prevent accidental payments by blocking duplicate invoice IDs

☐ Yes, block multiple payments per invoice ID

☒ No, allow multiple payments per invoice ID

Block the following payments:

☐ Pay with eCheque transfer for all website payments except eBay.
Note: You can't block eCheque payments on eBay.

eBay refunds and disputes:

Set up a pre-approved payment so that eBay can charge your PayPal account for amounts v
